WILD GARDENS
Ruth M. Dormon
Route 3, Box 70, Shreveport, La.

A FEW PERTINENT IRIS FACTS

All checked Items have been withdrawn for propagation

Those marked out have been discontinued until stock can be built up again.

Prices are lower where quantity of stock permits.

We are weeding out all inferior iris, the quality of unnamed iris in collections has been raised, hence the higher price of Five Dollars a dozen is asked.

The sizes of rhizomes vary according to the variety. For example: Fulva and Viridivinea have very slender rhizomes while those of Giganticaeruleae and Giganticaeruleae blood are very large.

We use every precaution to keep stock true to name.

We do not grow enough iris to sell wholesale.

The rhizomes we send out will be big enough to give bloom the first season, if planted early enough in Fall and given proper culture.

We pay postage on orders amounting to five dollars or more.

Color chart used in descriptions - Paul and Maverz.

- - - - -

- Starry Night - 6 inch flrs., black - violet enormous bright yellow crest. Very floriferous - 3 ft. \$1.50
